Los Angeles, CA 90049

Subject: Notice to Cure Breach
Reference: Agreement No. 4400005525

Dear Ms. Hollister:

We are writing to notify you that Vision To Learn ("VTL") is out of compliance with the terms of the above-referenced agreement. The Los Angeles Unified School District ("District" or "LAUSD") considers VTL's lack of compliance as grounds for issuance of a Notice to Cure Breach ("Notice") and possibly termination for default under LAUSD Agreement No. 4400005525 ("Agreement").

As of the date of this letter, VTL is not on schedule to provide screenings, exams and glasses for 30,000 students in the 2017/2018 school year as is required under the Agreement.

Pursuant to Section 15, Termination, of the Agreement, VTL is hereby notified that unless the issues set forth below are cured (corrected) by May 10, 2018, LAUSD may terminate the Agreement for default.

Below is a discussion of events that necessitated this Notice.

According to the Agreement, VTL is required to provide screenings, exams and glasses for 30,000 students annually (i.e., for school year 2017-2018). As of today, our records indicate that VTL has screened only 1,572 students, 1,572 have received exams, and up to 1,387 may have received glasses. Because only three (3) months remain in the school year, it appears unlikely that VTL will be able to timely perform its obligations under the Agreement.

District school and Nursing staff received complaints of scheduling challenges and delays caused by VTL. Indeed, Exhibit A, Page 1, paragraph 6, item #7 states when an individual school has turned in 20+ consent forms, Contractor operations staff shall schedule a mobile clinic visit. However, numerous schools (with returned consent forms) dating as far back as Fall 2017 requested services have not been contacted, had their calls returned, or been scheduled for a visit. Parents of students are asking when their child will be seen by VTL. (See attached list of emailed complaints, titled Exhibit A, Item #7. Email complaints.)

Ann Hollister
April 11, 2018
Page 2

Moreover, Exhibit A, Page 1, paragraph 6, item #8 states Contractor's mobile clinic shall come to the school on the date previously agreed to with school site Principal/Administrator. Yet, few schools have been contacted to set up a date. Furthermore, schools that have been contacted are being informed VTL will focus on conducting vision screenings for the remainder of this school year and will schedule the mobile clinic for **eye exams** beginning in the **2018-2019** school year. (See attached list for emailed complaints, titled Exhibit A, Item #8, Email complaints.)

In addition, Exhibit A, Page 1, paragraph 6, item #9 states trained opticians and doctors shall conduct exams for every student who fails the vision screening. Because of VTL's delays in scheduling, students who have failed the vision screening and will be matriculating to another school (i.e., 5th or 6th grade elementary students matriculating to middle school, 8th grade students matriculating to high school and 12th grade students who are graduating) may not receive exams or glasses. (See attached list for emailed complaints, titled Exhibit A, Item #9, Email complaints.)

In responding to this Notice, VTL is required to provide a plan of corrective action it will take to complete screening, exams and providing glasses for 30,000 District students by June 30, 2018. Please ensure this plan includes milestones for each action.

Failure to provide a viable plan by May 10, 2018 and/or, if a viable plan is provided, failure to implement the plan and complete the Year One services by June 30, 2018, may result in termination of the Agreement for default. We would like to invite VTL to meet with District staff to discuss the concerns stated in this Notice. Please email me at bruce.trenbeth@lausd.net to schedule the meeting. If you have any further questions, please email me or call me at (213) 241-8765.

Sincerely,

Bruce Trenbeth
Contract Administration Manager

Subject: Vision to Learn and Cleveland High

Hi, Irene.

Our school nurse, Gina De La Luna, informed me that we should contact you. We designated our Newcomer Coach, Jancy Amaya, as our school liaison with Vision to Learn. Please see the e-mail string below between her and Vision to Learn. As I understand it, Vision to Learn first offered us 125 pairs of eyeglasses and was going to screen the requests and referrals we received from parents and teachers--we received over 200. Now, they are asking to screen all 12th graders instead, which, of course, makes no sense to us. We now have over 200 students whose families are expecting that, if their child's vision test shows they need glasses, their child will receive free eyeglasses through this program at our school. Would you please assist us with this situation?

Subject: Re: Vision to Learn

This is the first time I am hearing this. Why is that?

Only 125 students will receive glasses. Why would we screen almost 900 who will not be there next year?

In emailing/speaking with Jessica, I stated that over 220 student day were referred and those students would be screened. (They have not been screened by us.)

We discussed setting up dates for the following school year so that all 3200 students can be screened at the beginning of the new year.

Again, I had asked since September for screenings and my emails were left unanswered.

We are now in then midst of testing and do not have access to a room that will accommodate that many screenings, which is why I requested that this happen at the beginning of the school year.

Based on the limited number of students who will receive glasses, we sent notices to parents, teachers, and students asking for referrals. We have over 220 students who were referred. That may mean some of those students will be eligible for glasses and not receive them until next year, and some of them are seniors.

I hope this has clarified that we decided to focus on our students with the most urgent need. To deny them the opportunity for glasses because you'd like to screen several hundred students who will not be there next year would be an injustice.

Please let me know how this can be resolved. Otherwise, I will have to notify the 228 families that their child will not be provided this opportunity any more.

Thank you,

Jancy

On Wed, Mar 14, 2018 at 4:27 PM Shambria Williams <shambria@visiontolearn.org> wrote:

If the students we are providing exams to are students who were screened by you than we do not need to re-screen them. However, Vision To Learn is unable to provide eye exams to a school site where all vision screenings have not been completed. Our goal is to ensure all students at the school who need glasses have the opportunity to receive them. Therefore, we want to ensure all students are able to participate. I hope this clears up some of the confusion.

My best,

Hi Jancy,

Happy Friday!

I am just sending a friendly reminder about dates for next fall.

We will need about 6 full days to screen the entire school (we can break it down by grades or core subject, whatever you think is best).

For exams, we should reserve at least 10 visits with the mobile clinic to do exams, on some of these days we may be able to send 2 clinics instead of 1. We can always work out the kinks later, the most important part in getting some dates reserved for your school.

If I don't hear back today, have a great weekend!

Subject: Re: Vision to Learn

Hello,

I am looking for clarification. The first time we communicated, I was told that there was not enough time in the school year to test all students (even though I had requested this in August) and that only 125 students would be able to receive glasses. Because of this, we decided to screen only those who self referred, teacher referred, or parent referred. As of today, 200 consent forms have been distributed and 81 have been returned. I am not sure why testing for all students would take place now if some students would not receive glasses for 6 months. I would like to set up a date now for the entire campus for next year if that is possible.

Can I clarify what adjustable lighting looks like? Does lighting in a classroom not meet that criteria?

Additionally the Miller Career and Transition Center for special needs students ages 18-22 (which is across the street from us) asked if they could also participate. Do they have to request a visit separately?

Thank you,

Jancy

On Thu, Mar 1, 2018 at 12:28 PM, Jessica Calderon <jessica@visiontolearn.org> wrote:

Hi Jancy,

Attached is a sheet that lists what we will need the day of screenings.

I now only have **April 16th, 17th, 18th, 23rd, 26th, 27th & 30th** available for screenings. It looks like you have a population of 3198 and it would take about 7 days with a population this size.

Can you approve those dates for screenings?

Another suggestion I have is to have us screen just the seniors this school year and return next fall to screen the entire school. This way we can screen the incoming freshman as well. This also gives us more time to conduct the actual exams on the Mobile Clinic.

Good Morning,

Which dates are available for screening? At the beginning of the year, consent forms were sent out only to magnet students. We received numerous consent forms then, but since that was in August, we are starting fresh. An email was sent home to parents and teachers were informed and were asked to refer students on Friday. I expect to we will have at the very minimum, 125, as I have been receiving an influx of emails and phone calls from parents. I can have a better number for you by the end of the week.

Best,

Jancy

On Thu, Feb 22, 2018 at 9:14 AM, Jessica Calderon <jessica@visiontolearn.org> wrote:

Good Afternoon,

I hope everyone is having a great Monday.

I needed to look again before responding to this email. It is very disheartening to see the list of schools that will NOT be seen this year although they were told in October that returning the consent would guarantee a visit by Vision 2 Learn for those students that failed the vision screening. This information we have been sharing with our nurses affected and it was not well received.

Thank you and keep us posted with any changes. Irene.

Thanks Carmen.

Hello Debra, Isabel, and Irene,

I hope this email finds you all well and in good spirits.

As promised, I have attached a report that will inform you of the following:

- Schools in progress
 - Screening & Exam information
- Schools completed
- List of schools who returned principle approval forms
- List of schools who have not returned principle approval forms.

For all 26 schools listed under principle approval form returned but have no date. Vision To Learn will personally reach out to all of them and schedule for next school year. These schools will take top priority in scheduling dates for next school year. The outreach for those schools listed will begin next week.

For all the schools who have not returned principle approval forms, my hope is that we will speak to those principles during the April 2nd meeting and follow up with the individually for scheduled dates next school year.

Lastly, for next school year, I hope to have a tentative schedule for all the schools who returned forms to be provided to you all in May. In the meantime, I will create a google doc. and share it with you all. This way you all can be updated in real time on the progress of schools in local district Northwest.

Please let me know if there is anything that needs adjusted or if there are any questions.
Thank you all for your patience and I look forward to working with you all going forward.

Kind regards,

Shambria Williams

Subject: Vision to Learn Van

Good afternoon Eileen,

Hope you're doing well and looking forward to a well deserve few days off!

Sorry to bother you, I wanted to follow up with you regarding Vision to Learn. I have not heard from the program regarding a date as to when they will be coming to Rosa Parks Learning Center. I have completed my vision screens for the mandated grades. I'm still waiting to hear from Vision to Learn, as to when they will be coming to complete the other grades.

I have already received consent forms from the parents for Vision to learn, for the students that did not pass their vision screen.

Many parents at Rosa Parks are asking when the Vision to learn program will be coming. Is there any way, to find out if they will be coming to Rosa Parks Learning Center and when?

Thank you for your assistance with this matter and if you need for me to follow up with them, please let me. (I know you're busy and if I can assist, I will be happy to do so).

Once again thank you and have a great Spring Break!

Good morning Ms. Wessels,

We did receive Sixth Avenue ES/LD West Vision to Learn Principal Approval Form last fall.

It was forwarded to Vision To Learn (VTL) at that time.

I have included Jessica and Shambria from Vision To Learn (VTL) on this email.
They will assist you, as VTL schedules and provides all follow up directly with our schools.

Thank you for your hard work and wonderful care with our students.
You can also contact Jessica at 310-893-2318.

Warm Regards,

Eileen

Good morning Ms. Mitchell,

Last fall our school (Sixth Avenue ES/LD West) turned in a Vision to Learn Principal Approval form as we were interested in scheduling a mobile clinic visit. My colleague Ms. Moran and I are the school designees for the VTL services.

According to the VTL checklist, we are supposed to work with their team to schedule a site visit. As of yet, we have not heard from VTL. Should we continue to follow up on our consent forms and wait for them to contact us? We are trying to make sure we are prepared for their potential visit.

Thank you for your assistance and support.

Hi Eileen,

Happy New Year!! I was emailing you to follow up regarding Vision to Learn I sent you the approval form in October. Do we have dates that they will be coming to the elementary schools.

yet.....I am very excited for my school to be participating once again, this program has helped a lot of my children at my school.

Thank you!

Hi Shambria,

Yes there has been some confusion. However, the memos went out late Tuesday afternoon to all Principals so this will help alleviate some of that confusion. The nursing administrators have been given the go ahead to begin working with VTL. I am cc'ing Eileen Mitchell, one of our Nursing Specialists, on the email who is our point person for VTL. We have already begun receiving consent forms from schools in our office. Eileen will be the one collecting them and disseminating them and communicating with the nursing administrators in the Local Districts regarding which schools have indicated an interest in having the VTL program at their site.

Thanks,

Hello Sosse,

Happy Monday!

I spoke with Clare Reed in Local District Central and she had mentioned she was instructed to hold off on VTL reaching out/ scheduling schools because there is some confusion around the data use agreement and the principles email? Is there anything we can do to solve the problem on our end?

During our last meeting, we all agreed a separate email to the selected schools should go out to inform those principles about VTL, has that email been sent? Have you heard anything about when the general principles email will go out? Again, please let us know how we can best support.

Regards,

Hi Shambria,

Yes there is a large parking lot you may park in. There is a small fenced off section which is for the nursing office staff which usually gets full. However, the area outside of the fenced section usually has ample spaces.

Hi Shambria,

9am is great. We will include you on the agenda. However, we have a change in our meeting location. We will be meeting at the Local District East Nursing Office (often referred to as Jardin de los Ninos) at

3921 Selig Place, Los Angeles, 90031. The office phone number is (323) 224-3325. Serena, you met with us at this location when I was assigned to Local District East. Shambria, in case you haven't been, it can be challenging to find the location at first so if you have any problems give the office a call.

Looking forward to seeing you on Friday.

Hi Shambria,

Thanks for the quick response. We just thought it would be best to ensure everyone received the same information and are on the same page.

We are getting a multitude of emails and calls regarding the programs so we want our administrators to provide consistent messages when they do get specific questions.

Thanks so much,

Sosse

Hi Serena and Shambria,

Following our phone conference last week, I had asked if you would be available on Friday, 9/15/17 (originally it was Thursday, 9/14/17) to come speak at our Nursing Administrators Meeting. Serena, I believe when I last emailed you (on Thursday, 9/7/17), you were going to check on what time on Friday worked best.

We informed our Nursing Administrators at our meeting last week that Vision to Learn would be presenting at an upcoming meeting to review some key information about the program as well as demonstrating the Spot Vision Screener prior to each Local District arranging meetings to discuss arrangements related to their individual regions.

Please let me know what time Friday works best for you and how much time you will need and I will include you on our agenda.

Thanks,

Sosse

Subject: Vision To Learn Partnership 2017-18 School Year

Hello Carmen, Irene, and Kerrie,

I hope this email finds you all well!

Vision To Learn is thrilled to partner with LAUSD District Nursing to bring free vision care to the students of the Northwest District region. Serena and I would love to meet you all to develop a plan for Vision To Learn to visit schools in Northwest for this school year. Perhaps you can give us with some dates/times that work well with your schedules?

In the meantime, I have attached a spreadsheet of all the schools in Northwest. The schools Vision To Learn visited last school year and their re-eligibility date are noted as well. Additionally, I have highlighted the schools Vision To Learn is interested in serving first.

We have received several inquiries from school nurses and principals in the Northwest District inquiring about our visit or eager to schedule their schools. We will be following up with each nurse and or principle in the coming days/weeks. I look forward to working closely with you all to make sure students get the tools they need to succeed, not just in the classroom but in life.

Warm regards,

--

**Exhibit A, Item #8
Email Complaints**

Hello Eileen,

I hope this email finds you well.

In the future, please direct all correspondence regarding logistics to me directly. I am happy to answer any questions you may have.

As far as the order of principal approval forms the forms that were submitted to us do not have any dates on them as to when the forms were submitted. Therefore, we have no way of knowing which forms were submitted in what order. We are calling schools back and trying to ensure that we schedule schools from each local district.

As you know Vision To Learn received a slow start in getting the program running. Per our agreement we began with High Schools from September to December and Elementary and Middle schools were projected to be scheduled January to June. We are still operations under this agreement and are trying to ensure that every school who returned forms are scheduled.

However, there will be schools we will need to plan for next school year. I am reaching out with District nurses regarding our progress and also lobbying within LAUSD to get additional support for the schools/ nurses. I am happy to connect and discuss remaining of the school year. Please let me know sometimes/ days to connect.

My best,

Shambria Williams

Subject: PRINCIPAL APPROVAL FORMS PAF)

Good morning Jessica,

School nurses are calling me and stating I need to send you a copy of the PAF.

Attached is a list of the schools with the PAF.

The nurse at Belvedere MS just called and her form was submitted 10-20-17....you have this on file there as they were all faxed to VTL.

Any school on this attached list has the required PAF on file here in DNS.

This spreadsheet should be sufficient for your records. If this is not acceptable and you want the copies of all of the PAF - please let me know and I will have them sent to you.

There are many many schools on the lists that have not been contacted or received services.

Schools that have recently completed the PAF are being scheduled in the near future and ahead of schools that completed the forms prior to the October 30th due date.

Many Administrators are questioning why they have not been scheduled and other schools that just submitted documentation are scheduled.

Please respond to this email and let me know how you are selecting the schools and what order you are working them in, so I can respond to the Administrators questions and concerns.

Best Regards,

Eileen

Hi Shambria,

Do you have a date(s) when Vision To Learn is scheduled to be at Van Nuys Elementary School and Grant High School? Both of these schools are on the list that you forwarded me in your August 30, 2017 e-mail as schools that Vision To Learn is interested in serving first in the Northeast. The school principals at both of these schools have submitted the Vision to Learn Principal Approval Form. I have been in contact with the school principal at Van Nuys Elementary School and the School Nurse at Grant High School who both report that they have students that are ready for a comprehensive eye exam.

Please let me know when you will be scheduling the Vision to Learn mobile clinics at Van Nuys Elementary School and Grant High School.

Thank you,

Marianne

Eileen,

VTL is going through Operations to attend the Principals' meetings. We went to the meeting on the day they presented in the East promoting VTL, and they encouraged and passed out the Principal forms to most of the Principals who were there. They stated they wanted all of the schools to sign up and made it seem as if those who signed up at the meeting would get priority on seeing their students. Sylvia and I spoke to Shambria after the presentation and told her that they needed to make it clear that the chances of their schools being seen this school year was likely not going to happen. The schools that should have priority are the ones who submitted their forms in October.

Subject: VTL Packet - Principal Approval Form

Good morning Team,

As The Vision To Learn (VTL) Team attends more and more LD Principal Meetings there is an increase in interest for their program.

I am getting multiple requests for the Principal Approval Form (PAF).

The Vision To Learn "Packet" sent to all principals in October is attached for your convenience and to send to school nurses if requested.

Schools requesting services must have the Principal Approval Form completed.

After completion, the school nurse or designee is to scan and email me for processing.

Thank you all for assisting with this and have a lovely three day weekend.

Best Regards,

Eileen

Good morning Eileen,

FYI

I received the e-mail below from Jessica Calderon. I will be at Rosa Parks tomorrow and will find out from Mrs. King what dates we can have the rest of the classes screen for this school year.

Unfortunately, I have several 5th graders that have turned in their Vision To Learn consents that will be moving to Middle School, so hopefully they will be able to be seen at their Middle School next school year.

Thank you for your assistance with Vision To Learn!

Subject: Rosa Parks Learning Center (NW)

Good Morning Leana,

I hope you are having a great Spring break.

Thank you for reaching out about our services. I am sorry that we have not reached out to schedule dates for Rosa Parks Learning Center. We started our new partnership with LAUSD last Fall and have been working to get through as many schools as possible.

We have been receiving a record number for consent forms back from schools which is amazing but also means that we have been spending more time (than usual) to complete individual schools. Our Mobile Clinic is completely booked for the rest of this school year but we would love to get some dates on the calendar for screenings.

We can screen all of the non-mandated grades (1st, 3rd & 4th) this year so that we can begin exams early next Fall. My partner, Amber Williams will send you some available dates for your school and more information about the screening process.

Kind Regards,

Jessica D. Calderon

Good afternoon Eileen,

Hope you're doing well and looking forward to a well deserve few days off!
Sorry to bother you, I wanted to follow up with you regarding Vision to Learn. I have not heard from the program regarding a date as to when they will be coming to Rosa Parks Learning Center. I have completed my vision screens for the mandated grades. I'm still waiting to hear from Vision to Learn, as to when they will be coming to complete the other grades.
I have already received consent forms from the parents for Vision to learn, for the students that did not pass their vision screen.
Many parents at Rosa Parks are asking when the Vision to learn program will be coming. Is there any way, to find out if they will be coming to Rosa Parks Learning Center and when?
Thank you for your assistance with this matter and if you need for me to follow up with them, please let me. (I know you're busy and if I can assist, I will be happy to do so).

Once again thank you and have a great Spring Break!
